Subject: Amended Notice of Intention to Commence Large Mining Operations, Kennecott Barneys Canyon Mining, Barneys Canyon Mine, M/035/0009, Salt Lake County, Utah

Dear Mr. Schnoor:

The Division of Oil, Gas and Mining has received the amendment on February 11, 2015, for the proposed monitoring well site for the Barneys Canyon mine. The Division approves the addition of the monitoring well. After the well construction has been completed, please submit the following:

1. Final collar coordinates of the monitoring well location
2. Finalized figure(s) including access road
3. As-built drawings of the well construction
4. An amended Table of Contents to the Barneys Canyon Notice of Intention for the new Appendix.

The above items will be reviewed and stamped approved when received and a copy returned for your records at that time. The approval or acceptance of a complete notice of intention does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations. Please contact Leslie Heppler at 801-538-5257 or me at 801-538-5261 if you have questions about this action. Thank you for your cooperation in providing the monitoring well.

Sincerely,

Paul B. Baker  
Minerals Program Manager
